Ghost Fighter Series Official Site: [http://www.ghostfighter.net/index\\_e.html](http://www.ghostfighter.net/index_e.html) Ghost Fighter YouTube Channel: <http://www.youtube.com/ghostfightergames> Ghost Fighter Facebook Page: <http://www.facebook.com/ghostfightergames> Ghost Fighter Twitter page: <https://twitter.com/GHOSTFIGHTERSG>

The game was originally released in English, German, Italian and French but it has now been translated into several other languages by the fans of the game throughout Asia and Europe including Tagalog, Spanish, Russian, Arabic, Bulgarian and Polish. This has served to boost the game's popularity among fans of Asian games in these countries.

The game has an extensive voice cast with global voice actors. <http://www.youtube.com/user/ghostfightergames> Ghost Fighter also has an official Facebook page, Twitter account and YouTube channel for users to upload videos of their gameplay experiences. This has allowed them to create new content for the game which they can submit to the developers so that they can add it to the game's content update roster which is updated regularly on their website. Such content includes video edits, translations, fan art and walkthroughs of the game. Some users even participate in the forums and ask questions about their favorite characters or voice actors. More recently, a number of serious gamers have been uploading videos of themselves playing the game and providing commentary. The Ghost Fighter has a multi-faceted fanbase from different continents, including Europe, Asia and America. It has gained popularity from video gamers from both East and West who enjoy anime style games with a storyline that is comparable to those of Western comics. A number of reviewers have made comparisons between The Ghost Fighter Series and Western comic book series such as Batman, Hellboy and The Watchmen . Its co-creator's familiarity with the comics industry has allowed him to create game content that is influenced by these sources .
